

My name is Leah Seastedt. I am the Administrative Officer (AO) for the Spinal Cord Injury/Dysfunction (SCI/D) Service, St. Louis VAMC.

I have been working for the VA since 2005, initially as an administrative trainee at the Little Rock VA in Arkansas and then at the Louisville VA in Kentucky. I joined the St. Louis VA in 2006 and the SCI/D Service in 2008. I obtained both a Bachelor's degree in Business Administration and a Master's in Healthcare Administration from the University of Kentucky in Lexington.

I enjoy working with veterans with spinal cord injury/dysfunction. My work at several VA medical centers has afforded me the opportunity to work with veterans and staff in different settings and regions of our country. This experience helps me to bring different approaches to problems as they arise and it helps me improve processes in my position as the AO.

I can be reached in my office (2S34) or at 314-652-4100 or 800-228-5459. ext. 6-4833.
