

My name is John (Jack) Stuckmeyer. I am a graduate from the St. Louis College of Pharmacy. I have been working at the St. Louis VA Medical Center for the past 32 years. For the past 9 years I have been the Pharmacist for the Spinal Cord Injury (SCI) Service.

Getting the best medications for people with SCI is often quite challenging. It is important for patients to understand the impact of each medication and its proper dose.

Some of my duties include advising providers about medications, teaching patients about their uses and side effects in the SCI Wellness Group, coordinating medications and supplies for veterans ready for discharge, and reviewing medications and supplies during clinic visits.

Please do not hesitate to contact me if questions regarding medication arise.

I can be reached at 314-652-4100 or 800-228-5459, ext. 6-4003.
