

My name is Jackie Wolz. I am a Physical Therapist. I graduated from University of Notre Dame in 1997 with a Bachelor of Arts in Pre-Professional Studies and Psychology. I earned my Master of Science in Physical Therapy from Washington University in 1999. My first full-time position was at the John Cochran division where I worked primarily in outpatient orthopedics and chronic pain. I transferred to the Jefferson Barracks Spinal Cord Injury (SCI) Service in 2002. During my time here, I have undergone additional training and earned further clinical certifications in spinal cord injury, aquatic therapy, recreational equipment, and custom seating systems.

I have been very fortunate to learn from and work with an experienced and dedicated staff at the SCI Service. I truly love my job, and I feel very proud and fortunate to be able to serve veterans on a daily basis. I enjoy participating in the “extra” SCI activities and observing the camaraderie among veterans of different ages, backgrounds, and injuries. I have been a coach for the National Veterans Wheelchair Games and the Winter Sports Clinic, and I encourage every one of our SCI veterans to take part in at least one of these activities once in their lifetime.

I enjoy the challenge of meeting the unique and changing needs of each veteran with Spinal Cord Injury/ Dysfunction. Adaptive equipment is constantly changing and improving, which makes my job exciting. I hope to help each veteran meet his or her specific goals. Please let me know if I can assist you or your family member in any way.

I can be reached in my office (GN34) or at 314-652-4100 or 800-228-5459, ext. 6-4506.
